

ST. BERNARD PARISH | NEW ORLEANS, LA

Single Family Housing

January 2006 - April 2007

\$7.5 Million

Confidential Client

Disaster Response & Recovery

Demolition & Debris Removal

ACM Abatement

LVI was contracted to perform structural demolition services and site clearing for over 1,100 homes damaged by Hurricane Katrina throughout St. Bernard Parish, LA.

Project challenges included:

- » Access to landfill within the Parish and arrange for volume disposal.
- » Consolidation of demolition activities within geographical zones
- » Coordination with Parish staff and LVI to confirm all houses were demolished within a select area.
- » Coordination of trucking and logistics to optimize daily production.

The work performed included, but was not limited to, complete demolition and site clearing of homes after utility disconnects and appliances had been removed.

Project Managed By LVI Environmental of New Orleans Inc., a subsidiary of LVI Services Inc.
