PROPOSAL PROVISIONS- INFORMATION

Diversity and Income Requirements

GOSR through NCG is committed to awarding a contract(s) to firm(s) that will provide high-quality services and that is dedicated to diversity and to containing costs. We strongly encourage Offerors that are certified by New York State, or any other city or state, or the federal government, as minority- and/or woman- owned business enterprise ("M/WBEs"), as well as Offerors that are not yet certified, but have applied for certification, to submit responses to this RFP. All New York State certified M/WBE firms submitting proposals to this RFP should be registered as such with the New York State Department of Economic Development. For M/WBE firms that are not certified but have applied for certification, please provide evidence of filing, including filing date.

HTFC is required to implement the provisions of New York State Executive Law Article 15-A and 5 NYCRR Parts 142-144 (“M/WBE Regulations”) for all New York State funded HTFC contracts as defined therein, with a value in excess of \$25,000. HTFC strongly encourages teaming of M/WBE firms with majority firms and M/WBE firms with other M/WBE firms.

Small Business Diversity Participation

Pursuant to New York State Executive Law Article 15-A (“Article 15-A”), GOSR recognizes its obligation to promote opportunities for maximum feasible participation of certified M/WBEs, and the employment of minority group members and women in the performance of all New York State funded GOSR contracts.

Business Participation Opportunities for MWBEs

The directory of New York State Certified M/WBEs can be viewed at <http://www.esd.ny.gov/MWBE.html>. Offerors in need of further information or assistance relating to M/WBE partnering arrangements, can contact GOSR via email at MWBE_EEOCreports@stormrecovery.ny.gov.

Section 3 of the Housing & Urban Development Act of 1968

In addition to the above diversity requirements, and pursuant to Section 3 of the Housing & Urban Development Act of 1968, GOSR is committed to ensuring that employment and other economic opportunities generated by HUD financial assistance shall, to the greatest extent feasible, and consistent with existing federal, state and local laws and regulations, be directed to low- and very low income persons, particularly those who are recipients of government assistance for housing, and to business concerns which provide economic opportunities to low- and very low-income persons. A “Section 3 resident” is: 1) a public housing resident; or 2) a low, or very low income person residing in the metropolitan area or Non-metropolitan County where the Section 3 covered assistance is expended. A “Section 3 business concern” is a business that can provide evidence that they meet one of the following criteria: 1) 51% or more owned by Section 3 residents; or 2) at least 30% of its full time employees include persons that are currently Section 3 residents, or were Section 3 residents within three years of the date of first hire; or 3) provides evidence, as required, of a commitment to subcontract in excess of 25% of the dollar award of all subcontracts to business concerns that meet one of the preceding two qualifications. Further requirements for Section 3 contracts are detailed in Section 30 of Appendix I, “HUD General Provisions.”

Procurement Lobbying Provisions

Pursuant to State Finance Law §§ 139-j and 139-k, this RFP includes and imposes certain restrictions on communications between GOSR/HTFC/NCG and Offerors during the solicitation process. An Offeror is restricted from making contacts from the earliest notice of intent to solicit offers through final award and approval of the Subcontract (the restricted period) with GOSR or NCG staff other than NCG individuals noted to accept questions under this RFP, unless it is a contact that is included among certain statutory exceptions set forth in State Finance Law § 139-j(3)(a).

GOSR and NCG employees also are required to obtain certain information when contacted during the restricted period and make a determination of responsibility of the Offeror pursuant to these two statutes. Certain findings of non-responsibility can result in the rejection for Subcontract award and in the event of two (2) findings within a four-year period, the offeror is debarred from obtaining governmental procurement contracts. Further information about these requirements can be found on the Office of General Services website at

EXHIBIT A STATEMENT OF WORK

The purpose of this Statement of Work is to advise bidders of NorthStar Contracting Group's (NCG's) need for asbestos abatement services in various villages, hamlets, and towns of Long Island, New York and to outline conditions to qualified bidders for providing the services. The requested service is for the abatement of asbestos from housing units in preparation for the future demolition of the structures. The work to be performed must comply with all federal EPA and OSHA regulations as well as New York State (NY) rules and regulations for asbestos abatement projects. The requested service is for performing all work required of an asbestos abatement firm performing this type of service on Long Island from the initial proper notification of all required entities through completion of the abatement process and disposal of the resulting asbestos waste.

The selected abatement subcontractor must work with NCG personnel to complete all forms and make any and all notifications required of a building owner or agent needing abatement of asbestos containing materials (ACM) and potential asbestos containing materials (PACM) at residential properties in the of Long Island, as well as perform abatement of the properties following the requirements of the New York State Rules and Regulations. Work will include preparation and submittal of notifications, plans, and permit applications, and payment of notification and application fees, in addition to the abatement and disposal of the asbestos.

The selected asbestos abatement subcontractor will be performing all tasks in a manner that will ensure NCG and its client the Housing Trust Fund Corporation (HTFC) being administered by the New York Governor's Office on Storm Recovery (NY GOSR) complies with all applicable regulations and requirements for conducting asbestos abatement activities in the of Long Island.

The work to be performed is time critical.

Pre-demolition asbestos abatement activities must be completed in a timely manner to allow for sufficient time for NCG to perform the demolition work and to perform post-demolition Site restoration activities. As such, timely performance of asbestos abatement related operations are imperative to NCG's maintaining of an aggressive demolition schedule.

The selected asbestos abatement subcontractor will need to work closely with NCG and the independent third party monitoring company to insure compliance with all applicable laws and regulations, timely execution of the abatement work, submittal of documents needed to obtain an abatement permit and to maintain the Project Record for each home, and supply of documents needed for submittal to the third party air monitoring firm to prepare the Final Project Monitoring Report.

Site Description

There are twenty-one (21) properties on Long Island requiring asbestos abatement under this Request for Proposal (RFP). Locations of the twenty-one properties requiring abatement include:

- Lindenhurst, Suffolk County, Long Island, New York (10 housing units)
- Mastic Beach, Suffolk County, Long Island, New York (2 housing units)
- Oakdale, Suffolk County, Long Island, New York (1 housing unit)
- Patchogue, Suffolk County, Long Island, New York (1 housing unit)
- Riverhead, Suffolk County, Long Island, New York (6 housing units)
- Sayville, Suffolk County, Long Island, New York (1 housing unit)

The structures requiring abatement range from single story to multi-story residential dwellings but also include basements, garages, and out buildings. The types of asbestos requiring abatement range from asbestos slate (transite) siding to roofing materials including asphalt shingles and tar paper. Other ACM listed on the ASRs include but are not limited to boiler insulation; pipe insulation; vinyl asbestos floor tile (VAT); ceramic floor and wall tile; foundation tar and foundation/basement water proofing; caulks, grouts, sealants and mastics; interior and exterior tar paper; facade tar joints and exterior brick caulk.

Locations on Long Island where asbestos abatement services will be required include.

The Asbestos Survey Reports (ASRs) for the twenty-one (21) properties are available for download as described in the RFP.

Scope of Work

Prior to the commencement of abatement activities the selected subcontractor will be required to perform any and all pre-abatement activities designated by the asbestos rules and regulations of the State of New York, for asbestos abatement projects and required of the building owner / agent of the owner, and the abatement company, including submittal of an asbestos abatement permit application and permit application fees, required notifications and associated fees, and the development and submittal of any required plans and documents needed to obtain the permit(s).

The selected abatement contractor will need to work closely with the independent third party monitoring subcontractor to insure pre-abatement activities required of both subcontractors are conducted in a timely fashion and time critical manner so as not to impact on NCG's post-abatement demolition schedule timeframes.

Pricing requested will be lump sum per property. It will be extremely important for each bidder to carefully consider all potential complications that could arise from performing this type of work in an expedited fashion, including allowance for possible repeat cleaning of a work area should post-abatement air sampling, or inspection of the work area by an independent third party monitoring firm, show that asbestos is still present above the acceptable criteria level. The selected subcontractor will base their lump sum per property bid price quotation at a minimum on:

- the requirements of the RFP,
- information in the ASRs provided,
- the cost of the containerization, offsite transportation, and disposal of asbestos wastes,
- permit applications and application processes
- abatement notification requirements,
- required document submittals,
- time frames involved in the application and notification processes,
- conditions observed during site visits
- their knowledge and experience in providing the services requested in the locations needing the service.

The information provided on the ASRs will be considered sufficient for bidders to determine the various size and types of abatements needed which will trigger notification requirements, permit application fees, plan submittals, types of asbestos requiring remediation/abatement, size and types of containment and equipment needed, and amount of waste to be disposed.

The selected subcontractor will be required to obtain all applicable permits and make all application and fee payments required for performing the services (cost to be included in the per property lump sum

pricing provided). Anticipated permits and fees include those associated with asbestos abatement notification and obtaining the asbestos abatement permit.

Personnel utilized during the asbestos abatement activities must meet all NY and federal EPA/OSHA training and medical surveillance requirements for personnel employed in the types of asbestos activities they will be performing. Documentation of compliance will need to be supplied to the NCG Health and Safety representative as well as submitted to the selected independent third party monitoring firm for inclusion within the Project Records that are required to be maintained by them on Site during abatement and monitoring work at each affected property.

Since a Project Completion form from the DEP will be needed for each asbestos abatement project, and demolition activities are time critical, all activities to be performed by the selected asbestos abatement firm must be performed in an expedited manner. Final Reports from the independent third party asbestos abatement monitoring firm will be required to be submitted to NCG within 2 weeks of the completion of asbestos abatement activities. The selected abatement firm must therefore complete final disposal of the asbestos waste and provide the monitoring firm and NCG with the copies of all asbestos manifests and certificates of disposal from the final disposal facility(ies) for each property within 2 weeks of completion of each abatement. The selected abatement subcontractor must also provide the monitoring firm with any other documentation requested as needed to complete their final report to NCG on each property.

The selected asbestos abatement subcontractor will be required to provide photo documentation of their entire asbestos abatement process to include pictures of the structure prior to abatement; areas of the structure requiring abatement, set-up of any containment devices; set-up and use of decon facilities; personal air sampling activities conducted for their own personnel; and post abatement showing work areas clear of asbestos waste and that all containment and decon facilities have been removed. Copies of all photos, along with a copy of the abatement log maintained by the Asbestos Supervisor, will need to be submitted to NCG at the end of abatement activities at each property.

Prior to the performance of the abatement, the selected asbestos abatement subcontractor will need to generate a Site-specific Health and Safety Plan (HASP) and Job Hazard Analysis (JHA), and upon approval of the HASP/JHA by the NCG Health and Safety (H&S) Department the selected abatement firm will have its personnel read and sign the HASP and agree to comply with all of its requirements prior to work taking place on Site. Asbestos abatement personnel working on the Site will need to attend a daily safety meeting to be conducted by the abatement subcontractor's Asbestos Supervisor, Project Manager, or Site Safety Officer at the beginning of each work day and supply documentation of the completion of that daily meeting to the NCG H&S Dept. representative assigned to the Site as well as to the Asbestos monitoring firm for inclusion in their Project Record.

The Daily Safety Meeting documentation to be provided to the monitor by the abatement subcontractor will need to include the names of all personnel attending, name of the Supervisor conducting the meeting, and the date the meeting occurred as well as subjects discussed. The daily meeting will include at a minimum the type of work to take place that day, the hazards associated with the tasks to be conducted, and any steps to be taken by Site personnel to control and alleviate the hazards.

Employees utilized in the abatement work must possess all training certification and asbestos certifications required for performing abatement activities prior to the start of abatement work. Copies of the abatement contractor's certification and training documents must be submitted to the monitoring firm for inclusion in the Project Record prior to work taking place and must have their certification documentation on hand while performing abatement activities on Site. The selected asbestos abatement services subcontractor will be responsible for conducting its own personal/personnel air monitoring.

The selected asbestos abatement subcontractor providing services under this RFP will be responsible for the removal and disposal of all asbestos waste by no later than three working days after notification of successful post clean-up air sampling results at each individual residential property as activities end at that location. In addition, they must perform all tasks associated with the transportation and offsite disposal of the waste including but not limited to, proper packaging, labeling, manifesting, and disposal of the asbestos, and providing of a Certificate of Disposal and copies of fully executed manifests from the final disposal facility to show the waste was properly disposed of. Copies of all shipping papers showing weight and amount of materials disposed of, location of disposal, and listing the disposal facility, must be given to the monitoring firm for inclusion in the Project Record as well as to the NCG Construction Manager or his designated representative at completion of disposal and also be attached to the invoice requesting payment for that service.

Because this work is time critical, NCG scheduling requirements must take precedence over the schedule of the selected abatement subcontractor. The producing of any Plans, documents/reports, manifests, certificates of disposal, etc. will need to be expedited as well. The selected abatement subcontractor must be prepared to have personnel dedicated to the project including enough personnel to cover multiple abatement activities if they are conducted concurrently. The lump sum per property bid price must be inclusive of any costs associated with the possibility of working in excess of 8 hours each day if required to maintain the required completion schedule. The completion of abatement activities on all 21 properties must be completed within 80 calendar days of award of the subcontract from notification through completion of final waste disposal.

Pricing must include the cost of all labor, equipment, supplies, and materials, administrative costs (both onsite and offsite), permit fees, plan design and submittal, offsite transportation and disposal of waste, employee expenses including any meals, lodging, travel, daily transportation to and from the Sites, misc. expenses, personal protective equipment (PPE) including disposable PPE, and any and all other costs that may be incurred in the performance of the abatement services requested as no costs will be approved outside of the line item pricing.

The selected abatement firm must also be prepared to be totally self-sufficient for the tasks they will be performing on Site and the cost of providing their own utilities (such as portable generators, water source, lighting, portable toilets, etc.) must be included within the lump sum pricing required for each property. Utilities to each property will have either been terminated by the building owner or will be in the process of being disconnected by NCG in preparation for future demolition of the structures.

The asbestos abatement subcontractor will perform or aid NCG and the independent third-party monitoring firm in performing any notification required of an abatement company and/or the building owner / agent of the owner to occupants in residences immediately adjacent to areas of the asbestos removal project where required, and to personnel on Site as well as non-asbestos personnel who may be conducting activities at the Site such as utility disconnects. Information provided in the notification shall include the asbestos abatement contractor name, project location and size, amount and type of ACM/PACM involved, the abatement procedure, dates of expected occurrence, and the Call Center number (311) for government information and services. Postings of this notification shall be in English and Spanish, and in a location and using font and letter sizing required by NYS asbestos rules. The notices shall be posted 7 calendar days prior to the start of the project and shall remain posted until clearance air monitoring is satisfactorily concluded.

Within 14 days of the completion of all steps set forth in the Asbestos Control Program's Asbestos Rules and Regulations, including successful clearance air monitoring, a project monitor's report must be submitted to NCG by the selected monitoring firm. The abatement firm must aid the monitoring

subcontractor in meeting this reporting requirement by timely submitting requested documents to the onsite monitor or through NCG. The asbestos abatement project will be considered complete at each property upon receipt by NCG of the Final Project Monitoring Report from the third-party monitoring firm.

This RFP does not commit NCG to pay any costs incurred in the development or submission of the proposal, nor does it commit NCG to produce or subcontract for any goods or services. NCG reserves the right to make multiple awards and/or no award at all. NCG reserves the right to award a subcontract or purchase order without further discussion. Bidders are responsible for placing all questions as to perceived ambiguities or conflict in the Contract Documents, in writing, prior to bid. After award, NCG will interpret any such conflicts or ambiguities at its sole discretion.

GENERAL CONDITIONS

- The Subcontractor will provide all necessary permits, labor, equipment, supplies and materials to accomplish the Scope of Work.

- Subcontractor shall ensure that all of its personnel and lower-tiered subcontractors are trained and qualified to conduct all task(s) they will perform.
- The Subcontractor shall provide NCG with a written report of all incidents concerning health and safety, and/or on the job injuries, and the corrective action taken on each within 24 hours of the incident.
- All work on Site is time critical. It is anticipated that award of this Bid will take place by August 19, 2016. The selected vendor will then be responsible for commencing Site work no later than 10 calendar days after award and completing all Site work within 80 calendar days of award. The selected vendor must be able to provide rush work in order to be considered for award and will need to complete onsite operations within the time frame requested to aid in insuring NCG can maintain the aggressive schedule necessary to complete all Site related demolition activities in a timely manner.
- Subcontractor shall commence work when directed by NCG and shall work continuously until completion of the Scope of Work, unless directed otherwise by NCG.
- Bidders are advised that ANY AND ALL pricing stipulations that conflict with the express requirements of the bid package will render the entire bid package to be deemed non-responsive. For example, the RFP states that pricing per each line item must be inclusive of all costs other than any applicable Federal, NY State, and local sales or use taxes. If the bidder responds that the unit prices do not include permit fees, overtime, meals and incidental expenses or that fuel surcharges and environmental fees may be applicable but are not included in the line item pricing, the bid will be deemed non-responsive.
- It is a violation of the rules and regulations of the State of New York Asbestos Rules and Regulations for an air monitoring firm to conduct air monitoring on an asbestos project where there is a business or personal relationship between the abatement contractor and the air monitoring firm. The selected abatement subcontractor must immediately inform the NCG Construction Manager of any potential conflict of interest, appearance of a conflict of interest or any personal relationship it or its personnel may have with the selected asbestos monitoring subcontractor once the name or names of the asbestos monitor(s) are disclosed.

EXHIBIT B

Certain findings of non-responsibility can result in denial of a contract award, and, in the event of two (2) findings within a four (4) year period, an Offerer will be debarred from obtaining governmental contracts for a four-year period. Computer software: (1) Means (i) Computer programs that comprise a series of instructions, rules, routines, or statements, regardless of the media in which recorded, that allow or cause a computer to perform a specific operation or series of operations; and (ii) Recorded information comprising source code listings, design details, algorithms, processes, flow charts, formulas, and related material that would enable the computer program to be produced, created, or compiled; and (2) Does not include computer databases or computer software documentation.

Computer software documentation means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

Data means recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. The term does not include information incidental to contract administration, such as financial, administrative, cost or pricing, or management information.

Form, fit, and function data means data relating to items, components, or processes that are sufficient to enable physical and functional interchangeability, and data identifying source, size, configuration, mating and attachment characteristics, functional characteristics, and performance requirements. For computer software it means data identifying source, functional characteristics, and performance requirements but specifically excludes the source code, algorithms, processes, formulas, and flow charts of the software.

Limited rights means the rights of HTFC in limited rights data as set forth in the Limited Rights Notice of paragraph (g)(3) if included in this clause.

Limited rights data means data, other than computer software, that embody trade secrets or are commercial or financial and confidential or privileged, to the extent that such data pertain to items, components, or processes developed at private expense, including minor modifications.

Restricted computer software means computer software developed at private expense and that is a trade secret, is commercial or financial and confidential or privileged, or is copyrighted computer software, including minor modifications of the computer software.

Restricted rights, as used in this clause, means the rights of the HTFC in restricted computer software, as set forth in a Restricted Rights Notice of paragraph (g) if included in this clause, or as otherwise may be provided in a collateral agreement incorporated in and made part of this contract, including minor modifications of such computer software.

Technical data, means recorded information (regardless of the form or method of the recording) of a scientific or technical nature (including computer databases and computer software documentation). This term does not include computer software or financial, administrative, cost or pricing, or management data or other information incidental to contract administration. The term includes recorded information of a scientific or technical nature that is included in computer databases (See 41 U.S.C. 403(8)).

Unlimited rights means the rights of HTFC to use, disclose, reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, in any manner and for any purpose, and to have or permit others to do so.

(b) *Allocation of rights.*

(1) Except as provided in paragraph (c) of this clause, HTFC shall have unlimited rights in:
(i) Data first produced in the performance of this contract; (ii) Form, fit, and function data delivered under this contract; (iii) Data delivered under this contract (except for restricted

computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair of items, components, or processes delivered or furnished for use under this contract; and (iv) All other data delivered under this contract unless provided otherwise for limited rights data or restricted computer software in accordance with paragraph (g) of this clause.

(2) The Contractor shall have the right to: (i) Assert copyright in data first produced in the performance of this contract to the extent provided in paragraph (c)(1) of this clause; (ii) Use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this contract, unless provided otherwise in paragraph (d) of this clause; (iii) Substantiate the use of, add, or correct limited rights, restricted rights, or copyright notices and to take other appropriate action, in accordance with paragraphs (e) and (f) of this clause; and (iv) Protect from unauthorized disclosure and use those data that are limited rights data or restricted computer software to the extent provided in paragraph (g) of this clause.

(c) *Copyright.*

(1) *Data first produced in the performance of this contract.* (i) Unless provided otherwise in paragraph (d) of this clause, the Contractor may, without prior approval of HTFC, assert copyright in scientific and technical articles based on or containing data first produced in the performance of this contract and published in academic, technical or professional journals, symposia proceedings, or similar works. The prior, express written permission of HTFC is required to assert copyright in all other data first produced in the performance of this contract; (ii) When authorized to assert copyright to the data, the Contractor shall affix the applicable copyright notices of 17 U.S.C. 401 or 402, and an acknowledgment of HTFC sponsorship (including contract number); (iii) For data other than computer software, the Contractor grants to HTFC, and others acting on its behalf, a paid-up, nonexclusive, irrevocable, worldwide license in such copyrighted data to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly by or on behalf of HTFC. For computer software, the Contractor grants to HTFC, and others acting on its behalf, a paid-up, nonexclusive, irrevocable, worldwide license in such copyrighted computer software to reproduce, prepare derivative works, and perform publicly and display publicly (but not to distribute copies to the public) by or on behalf of HTFC.

(2) *Data not first produced in the performance of this contract.* The Contractor shall not, without the prior written permission of HTFC, incorporate in data delivered under this contract any data not first produced in the performance of this contract unless the Contractor: (i) Identifies the data; and (ii) Grants to HTFC, or acquires on its behalf, a license of the same scope as set forth in paragraph (c)(1) of this clause or, if such data are restricted computer software, HTFC shall acquire a copyright license as set forth in paragraph (g)(4) of this clause (if included in this contract) or as otherwise provided in a collateral agreement incorporated in or made part of this contract.

(3) *Removal of copyright notices.* HTFC will not remove any authorized copyright notices placed on data pursuant to this paragraph (c), and will include such notices on all reproductions of the data.

(d) *Release, publication, and use of data.* The Contractor shall have the right to use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the

Contractor in the performance of this contract, except: (1) As prohibited by Federal law or regulation (e.g., export control or national security laws or regulations); (2) As expressly set forth in this contract; or (3) If the Contractor receives or is given access to data necessary for the performance of this contract that contain restrictive markings, the Contractor shall treat the data in accordance with such markings unless specifically authorized otherwise in writing by HTFC.

(e) Unauthorized marking of data.

(1) Notwithstanding any other provisions of this contract concerning inspection or acceptance, if any data delivered under this contract are marked with the notices specified in paragraph (g)(3) or (g) (4) if included in this clause, and use of the notices is not authorized by this clause, or if the data bears any other restrictive or limiting markings not authorized by this contract, HTFC may at any time either return the data to the Contractor, or cancel or ignore the markings. However, pursuant to 41 U.S.C. 253d, the following procedures shall apply prior to canceling or ignoring the markings: (i) HTFC will make written inquiry to the Contractor affording the Contractor 60 days from receipt of the inquiry to provide written justification to substantiate the propriety of the markings; (ii) If the Contractor fails to respond or fails to provide written justification to substantiate the propriety of the markings within the 60-day period (or a longer time approved in writing by HTFC for good cause shown), HTFC shall have the right to cancel or ignore the markings at any time after said period and the data will no longer be made subject to any disclosure prohibitions; (iii) If the Contractor provides written justification to substantiate the propriety of the markings within the period set in paragraph (e)(1)(i) of this clause, HTFC will consider such written justification and determine whether or not the markings are to be cancelled or ignored. If HTFC determines that the markings are authorized, the Contractor will be so notified in writing. If HTFC determines, with concurrence of the head of the contracting activity, that the markings are not authorized, HTFC will furnish the Contractor a written determination, which determination will become the final agency decision regarding the appropriateness of the markings unless the Contractor files suit in a court of competent jurisdiction within 90 days of receipt of HTFC's decision. HTFC will continue to abide by the markings under this paragraph (e)(1)(iii) until final resolution of the matter either by HTFC's determination becoming final (in which instance HTFC will thereafter have the right to cancel or ignore the markings at any time and the data will no longer be made subject to any disclosure prohibitions), or by final disposition of the matter by court decision if suit is filed.

(2) The time limits in the procedures set forth in paragraph (e)(1) of this clause may be modified in accordance with agency regulations implementing the Freedom of Information Act (5 U.S.C. 552) if necessary to respond to a request thereunder.

(3) Except to the extent HTFC's action occurs as the result of final disposition of the matter by a court of competent jurisdiction, the Contractor is not precluded by paragraph (e) of the clause from bringing a claim, in accordance with the Disputes clause of this contract, that may arise as the result of HTFC removing or ignoring authorized markings on data delivered under this contract.

(f) Omitted or incorrect markings.

(1) Data delivered to HTFC without any restrictive markings shall be deemed to have been furnished with unlimited rights. HTFC is not liable for the disclosure, use, or reproduction of such data.

(2) If the unmarked data has not been disclosed without restriction outside HTFC, the Contractor may request, within 6 months (or a longer time approved by HTFC in writing for good cause shown) after delivery of the data, permission to have authorized notices placed on the data at the Contractor's expense. HTFC may agree to do so if the Contractor: (i) Identifies the data to which the omitted notice is to be applied; (ii) Demonstrates that the omission of the notice was inadvertent; (iii) Establishes that the proposed notice is authorized; and (iv) Acknowledges that HTFC has no liability for the disclosure, use, or reproduction of any data made prior to the addition of the notice or resulting from the omission of the notice.

(3) If data has been marked with an incorrect notice, HTFC may: (i) Permit correction of the notice at the Contractor's expense if the Contractor identifies the data and demonstrates that the correct notice is authorized; or (ii) Correct any incorrect notices.

(g) Protection of limited rights data and restricted computer software.

(1) The Contractor may withhold from delivery qualifying limited rights data or restricted computer software that are not data identified in paragraphs (b)(1)(i), (ii), and (iii) of this clause. As a condition to this withholding, the Contractor shall: (i) Identify the data being withheld; and (ii) Furnish form, fit, and function data instead.

(2) Limited rights data that are formatted as a computer database for delivery to HTFC shall be treated as limited rights data and not restricted computer software.

(h) *Subcontracting.* The Contractor shall obtain from its subcontractors all data and rights therein necessary to fulfill the Contractor's obligations to HTFC under this contract. If a subcontractor refuses to accept terms affording HTFC those rights, the Contractor shall promptly notify HTFC of the refusal and shall not proceed with the subcontract award without authorization in writing from HTFC.

(i) *Relationship to patents or other rights.* Nothing contained in this clause shall imply a license to HTFC under any patent or be construed as affecting the scope of any license or other right otherwise granted to HTFC.

The Contractor shall accept any reasonable conflict mitigation strategy employed by the State, including but not limited to the use of an independent subcontractor(s) to perform the portion of work that gives rise to the actual or potential conflict.

16. SUBCONTRACTING

When subcontracting, the Contractor shall solicit for and contract with such subcontractors in a manner providing for fair competition. Some of the situations considered to be restrictive of competition include but are not limited to:

If, through any cause, the Contractor shall fail to fulfill in a timely and proper manner his obligations under this contract, or if the Contractor shall violate any of the covenants, agreements, or stipulations of this contract, the State shall thereupon have the right to terminate this contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five (5) days before the effective date of such termination. In such event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports prepared by the Contractor under this contract shall, at the option of the State, become the State’s property and the Contractor shall be entitled to receive just and equitable compensation for any work satisfactorily completed hereunder. 4. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the Deputy Assistant Secretary for Federal Contract Compliance Programs, provided by or through the contracting officer. Such notices shall state the rights of applicants and employees as well as the Contractor's obligation under the law to take affirmative action to employ and advance in employment qualified employees and applicants with disabilities. The Contractor must ensure that applicants and employees with disabilities are informed of the contents of the notice (e.g., the Contractor may have the notice read to a visually disabled individual, or may lower the posted notice so that it might be read by a person in a wheelchair).
5. The Contractor will notify each labor organization or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the Contractor is bound by the terms of section 503 of the Rehabilitation Act of 1973, as amended, and is committed to take affirmative action to employ and advance in employment individuals with physical or mental disabilities.
6. The Contractor will include the provisions of this clause in every subcontract or purchase order in excess of \$10,000, unless exempted by the rules, regulations, or orders of the Secretary issued pursuant to section 503 of the act, as amended, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the Deputy Assistant Secretary for Federal Contract Compliance Programs may direct to enforce such provisions, including action for noncompliance.

During the performance of this contract, the Contractor agrees as follows:

- A. The Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

- B. The Contractor shall post in conspicuous places, available to employees and applicants for employment, notices to be provided by Contracting Officer setting forth the provisions of this non-discrimination clause. - D. The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or workers representative of the contractor's commitments under Section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- E. The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations and relevant orders of the Secretary of Labor.

- G. In the event of the Contractor's non-compliance with the non-discrimination clause of this contract or with any of such rules, regulations or orders, this contract may be cancelled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further government contracts in accordance with procedures authorized in Executive Order 11246 and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation or order of the Secretary of Labor, or as otherwise provided by law.
- H. Contractor shall incorporate the provisions of A through G above in every subcontract or purchase order unless exempted by rules, regulations or orders of the Secretary of Labor so that such provisions shall be binding on such subcontractor. The Contractor will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions including sanctions for non-compliance, provided, however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

26. CERTIFICATION OF NONSEGREGATED FACILITIES
(Applicable to construction contracts exceeding \$10,000)

The Contractor certifies that it does not maintain or provide for its establishments, and that it does not permit employees to perform their services at any location, under its control, where segregated facilities are maintained. It certifies further that it will not maintain or provide for employees any segregated facilities at any of its establishments, and it will not permit employees to perform their services at any location under its control where segregated facilities are maintained. The Contractor agrees that a breach of this certification is a violation of the equal opportunity clause of this contract.

As used in this certification, the term “segregated facilities” means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation and housing facilities provided for employees which are segregated by explicit directive or are, in fact, segregated on the basis of race, color, religion, or national origin because of habit, local custom, or any other reason.

The Contractor further agrees that (except where it has obtained for specific time periods) it will obtain identical certification from proposed subcontractors prior to the award of subcontracts exceeding \$10,000 which are not exempt from the provisions of the equal opportunity clause; that it will retain such certifications in its files; and that it will forward the preceding notice to such proposed subcontractors (except where proposed subcontractors have submitted identical certifications for specific time periods).

1. ACCOUNTING RECORDS. The Contractor shall establish and maintain complete and accurate books, records, documents, accounts and other evidence directly pertinent to performance of work done for the Agency or Agencies under this Contract (hereinafter, collectively, "the Records") consistent with generally accepted bookkeeping practices. The Records must be kept for the balance of the calendar year in which they were made and for six (6) additional years thereafter. The Agency or Agencies involved in this Contract and any person or entity authorized to conduct an examination shall have access to the Records during normal business hours at an office of the Contractor within the State of New York or, if no such office is available, at a mutually agreeable and reasonable venue within the State, for the term specified above for the purposes of inspection, auditing and copying. The Agency or Agencies shall take reasonable steps to protect from public disclosure any of the Records which are exempt from disclosure under Section 87 of the Public Officers Law (the "Statute") provided that: (i) the Contractor shall timely inform the Agencies' Senior Vice President and Counsel, in writing, that said records should not be disclosed; and (ii) said records shall be sufficiently identified; and (iii) designation of said records as exempt under the Statute is reasonable. Nothing contained herein shall diminish, or in any way adversely affect, the Agency's or Agencies' right to discovery in any pending or future litigation.

2. CONFLICTS OF INTEREST. The Contractor shall not accept any engagement in conflict with the Agency's or Agencies' interest in the subject matter of this Contract.

The Servicer shall not offer to any employee, member or director of the Agency or Agencies' any gift, whether in the form of money, service, loan, travel, entertainment, hospitality, thing or promise, or in any other form, under circumstances in which it could reasonably be inferred that the gift was intended to influence said employee, member or director, or could reasonably be expected to influence said employee, member or director, in the performance of the official duty of said employee, member or director or was intended as a reward for any official action on the part of said employee, member or director.

3. SUBCONSULTANTS. The Contractor shall not employ, contract with, or use the services of any consultant for the work of this Contract (except such third parties which may be used by the Contractor in the normal course of business, such as couriers, imaging services, etc.) without obtaining the prior written approval of the Agency or Agencies.

4. NON-ASSIGNABILITY. This Contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or disposed of without the previous consent in writing of the Agency or Agencies and any attempts to assign the Contract without the Agency or Agencies' written consent are null and void. However, this Contract shall be binding upon and inure to the benefit of the Agency or Agencies and its successors and assigns.

5. INDEMNITY. The Contractor shall indemnify and hold the Agency or Agencies and their employees, officers, Members and Directors (collectively, the "Indemnities") harmless from and against all claims, demands, liability, loss, cost, damage or expense, including attorney's fees, which may be incurred by the Indemnities because of negligence or malfeasance on the part of the Contractor arising out of this Contract.

6. NON-DISCRIMINATION. To the extent required by Article 15 of the Executive Law (also known as the Human Rights Law) and all other State and Federal statutory and constitutional non-discrimination provisions, the Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, sex, national origin, sexual orientation, age, disability, genetic predisposition or carrier status, or marital status. If this a building service contract as defined in Section 230 of the Labor Law, then, in accordance with Section 239 thereof, Contractor agrees that neither it nor its subcontractors shall by reason or race, creed, color, national origin, age, sex or disability: (a) discriminate in hiring against any New York State citizen who is qualified and available to perform the work; or (b) discriminate against or intimidate any employee hired for the performance of work under this Contract. Contractor is subject to fines of \$50 per person per day for any violation of Section 239 as well as possible termination of this Contract and forfeiture of all moneys due hereunder for a second or subsequent violation.

If directed to do so by the State Commissioner of Human Rights ("Commissioner"), the Contractor will send to each labor union to which the Contractor is bound a notice provided by the Commissioner advising of this provision. This report is to be completed by grantees, developers, sponsors, builders, agencies, and/or project owners for reporting contract and subcontract activities of \$10,000 or more under the following programs: Community Development Block Grants (entitlement and small cities); Urban Development Action Grants; Housing Development Grants; Multifamily Insured and Noninsured; Public and Indian Housing Authorities; and contracts entered into by recipients of CDBG rehabilitation assistance.

Contracts/subcontracts of less than \$10,000 need be reported only if such contracts represent a significant portion of your total contracting activity. Include only contracts executed during this reporting period.

This form has been modified to capture Section 3 contract data in columns 7g and 7i. Section 3 requires that the employment and other economic opportunities generated by HUD financial assistance for housing and community development programs shall, to the greatest extent feasible, be directed toward low- and very low-income persons, particularly those who are recipients of government assistance for housing. Recipients using this form to report Section 3 contract data must also use Part I of form HUD-60002 to report employment and training opportunities data. Form HUD-2516 is to be

completed for public and Indian housing and most community development programs. Form HUD-60002 is to be completed by all other HUD programs including State administered community development programs covered under Section 3.

A Section 3 contractor/subcontractor is a business concern that provides economic opportunities to low- and very low-income residents of the metropolitan area (or nonmetropolitan county), including a business concern that is 51 percent or more owned by low- or very low-income residents; employs a substantial number of low- or very low-income residents; or provides subcontracting or business development opportunities to businesses owned by low- or very low-income residents. Low- and very low-income residents include participants in Youthbuild programs established under Subtitle D of Title IV of the Cranston-Gonzalez National Affordable Housing Act.

The terms "low-income persons" and "very low-income persons" have the same meanings given the terms in section 3(b)(2) of the United States Housing Act of 1937. Low-income persons mean families (including single persons) whose incomes do not exceed 80 per centum of the median income for the area, as determined by the Secretary, with adjustments for smaller and larger families, except that the Secretary

may establish income ceilings higher or lower than 80 per centum of the median for the area on the basis of the Secretary's findings that such variations are necessary because of prevailing levels of construction costs or unusually high or low-income families. Very low-income persons means low-income families (including single persons) whose incomes do not exceed 50 per centum of the median family income for the area, as determined by the Secretary with adjustments for smaller and larger families, except that the Secretary may establish income ceilings higher or lower than 50 per centum of the median for the area on the basis of the Secretary's findings that such variations are necessary because of unusually high or low family incomes.

The Subcontractor expressly agrees not to make, and hereby waives, any claim for damages on account of any delay, obstruction or hindrance for any cause whatsoever, including but not limited to the aforesaid causes, and agrees that its sole right and remedy in the case of any delay, obstruction or hindrance shall be an extension of the time fixed for completion of the Work. No extra payments shall be allowed for claims for additional work that could have been determined or anticipated by a proper and careful examination of the site.
18. Subcontractor shall take all field measurements, furnish all the required samples and drawings, comply with all governmental laws and decrees, give authorities timely and proper notices where required, secure and pay for all necessary permits, licenses, inspections, tests, and bonds required for the Work covered by this Subcontract/Purchase Order.

21. (a) In addition to all other rights or remedies which the Contractor may have at law or in equity, the Contractor reserves the right to terminate this Agreement in whole or in part, after giving three (3) days written notice to the Subcontractor without cost or expense to the Contractor, in the event of the happening of any of the following which shall be deemed occasions of default by the Subcontractor: failure to perform the Work in accordance with the completion date or dates specified and implied in this Agreement; failure in any respect to execute the Work with promptness and diligence; breach of any of the warranties contained herein; failure to pay promptly for labor, materials, machinery, equipment, tools, plants, facilities, work, services or any of its other obligations; interference with the work of others or causing stoppages or delays; insolvency; the execution of an assignment for the benefit of creditors; the filing of proceedings in bankruptcy or for corporate reorganization or arrangement by or against the Subcontractor or its assets; liquidation proceedings instituted by or against the Subcontractor; failure to strictly comply with the terms and conditions of this Agreement. In the event of such termination, Contractor may provide through itself or through others any labor, materials, equipment, machinery, tools, plant facilities and services for the performance of the Work and completion of this Agreement, and deduct the cost and expense thereof or from any money due or thereafter to become due to the Subcontractor. Should the Contractor terminate this Agreement, the Subcontractor shall not be entitled to receive any further payment under this Agreement until the Work shall be wholly finished, at which time, if the unpaid balance of the amount due the Subcontractor shall exceed the cost and

expense incurred by the Contractor in completing this Agreement, such excess shall be paid by the Contractor to the Subcontractor; but if such cost and expense shall exceed such unpaid balance, then the Subcontractor shall pay the difference to the Contractor. The cost and expense incurred by the Contractor shall include all costs of completing the Work, all payments for labor, materials, equipment, machinery, tools, plant facilities, services, all other obligations of the Subcontractor incurred by the Subcontractor, and paid directly by the contractor, any damages incurred through the default of the Subcontractor and also any other costs or expenses incurred by the Contractor, including but not limited to, legal fees and disbursements.

The Subcontractor expressly agrees not to make, and hereby waives, any claim for damages on account of such termination and agrees that its sole right and remedy shall be payment for the percentage of Work completed by Subcontractor.

(c) In the event the Subcontractor is terminated pursuant to subparagraph a) above, and it is determined that said termination was wrongful then the parties agree that said termination shall be deemed to be a termination pursuant to subparagraph b) above.

22. At the Contractor's request, the Subcontractor shall furnish detail or other design drawings for the Work for the Contractor's approval. Approval of any design drawing, or manufacturers' drawings by the Contractor shall not relieve the Subcontractor of any responsibility for execution of the Work in accordance with the terms, provisions and conditions of this Agreement.
23. All documents furnished by the Contractor or by the Subcontractor at Contractor's request, including but not limited to drawings, plans, blueprints, specifications, patterns, technical designs, instructions, calculations, etc., and all copies of reproductions thereof, shall remain the Contractor's property, and the Subcontractor agree not to sell or give such documents to any person, firm or corporation or use them on other projects without the Contractor's prior written consent.

Any failure of the Contractor to take the actions described and acknowledged in this paragraph will not relieve the Contractor from responsibility for estimating properly the difficulty and cost of successfully performing the work, or for proceeding to successfully perform the work without additional expense to the Government.

(b) The NorthStar Contracting Group, assumes no responsibility for any conclusions or interpretations made by the Contractor based on the information made available by the NorthStar Contracting Group.
