

Amendment No. 0001
RFP No. NCG-9250001-0017
Date: August 23, 2016

This amendment, (No. 0001) to RFP No. NCG-9250001-0017 for performing Asbestos Monitoring in Staten Island and Long Island is being issued to address participation in webinars for this procurement activity.

There are two pre-proposal webinars scheduled for Friday August 26 at 10:00AM EDT and Monday August 29 at 10:00AM EDT. Previously it was noted that vendor participation in one or the other of these events is **encouraged** (emphasis added).

Exhibit A, at page 7 indicates these events to be “Mandatory Pre-Proposal Webinars”.

For consistency, NCG states that all offerors register and attend a webinar that sets out proposal requirements and expectations. As such, the statement of the e-mail distributing the RFP is hereby revised to indicate that **participation in one or the other of these events is required**.

If you are an interested bidder but are unable to participate in one or the other of the two scheduled webinars, please contact Danny Lavergne and John Hager immediately.

For assistance in proposal preparation, contractors are urged to contact their local Small Business Administration or research other available resources for proposal support. You may also contact the corporation or agencies below for assistance below at no cost or minimal cost. Private contractors provide support at a cost to the contractor. All contacts provided below are independent agencies' or corporations with no affiliation with NorthStar Group Services, Inc., or the Governor's Office of Storm Recovery. NorthStar Group Services, Inc. makes no representations nor guarantees of the quality of assistance provided and contractors should investigate the types of services and cost provided prior at their own risk.
